

Pacific Tuna Tagging Programme

No. M00001

SPC NOUMEA - REWARD - www.spc.int/tagging No. M00001

- Supports sustainability advice for your industry
- Contributes to tuna stock assessments
- Improves understanding of habitat
- Maximise FAD efficiency

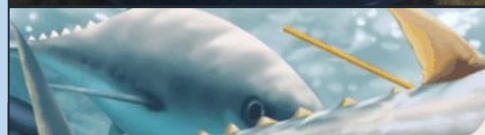

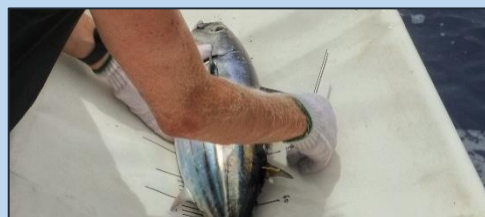

**Purse seiners
we need your support!**

What we need:

- **Access to drifting FADs** to tag and release tuna
- Access to **real-time echo-sounder buoy position** and biomass information
- Access **during the FAD-closure period only**

Ways you can support the programme:

- **Ask your satellite provider** about assisting scientists during the FAD-closure
- **Promote the tagging programme** and tag recovery
- Encourage your fishers to **report found tags**
- Be part of a **Pacific programme promoting sustainable fisheries**
- Report on **tagging support in your company's promotional material**
